### *Why the Constitution Party? Why NOW?*

The 2016 Presidential election cycle has revealed a very disturbing, unending source of corruption and manipulation from both the Democratic and Republican Parties. Our country has barely endured 8 years of one of the most egregious government takeovers and power grabs of any SITTING Presidential administration with little to NO intervention from either of the controlling Legislative branch, duopoly machines. It is time to recognize that the 100 year infiltration and systematic takeover, under the guise of a "Fundamental Transformation" of America, is complete.

WE have evolved from a Republic guided by a Constitution of well-crafted and historically changing amendments and articles, to a nearly unrecognizable Socialist Putsch government that utilizes, in the words of blogger Ann Barnhardt "Kabuki theatre", to continue to grow their power, enslave the populace and strip us of our Constitutional Rights to Life and Liberty in our Pursuit of Happiness. This isn't a defeatist attitude, this is a realist's interpretation of how far gone the Republic is.

If we are to have any opportunity to restore the Republic and the Constitution to their rightful places of global esteem, honor and integrity, then we MUST begin to change the corrupted foundation which the Socialist machine has successfully built over the last century, and begin to speak out against the ills of Socialism which plague BOTH of the current controlling parties.

The Constitution Party is the ONLY party on the national stage that offers a return to the Constitution, its *original intent*, and its historic purpose. Their Platform, Principles and Key Issue stances are superior to any party out there and are at the heart of what needs to transpire for the Republic to be Fundamentally *Restored*. It is time to BUILD up something new, that is reflective of the Original Intent of the Constitutional Laws, and to start infiltrating the hearts and minds of every American through continuous education, social conversation and fulfilling our due diligence in local and state governments.
